FINANCIAL NEWS AND COMMENT

Broader Trading Affects Most of List in One of Year's Busiest Sessions.

OLD FAVORITES POPULAR

Easing of Money Rates Is Chief Factor in Bringing About Better Market.

Trading in yesterday's stock market broadened out very perceptibly, taking in practically the whole list in one of the most enthusiastic sessions which has been witnessed on the Stock Exchange this year. Not only did it include all of the specialty stock as the motor. this year. Not only did it include all of the specialty stocks, such as the motors, ells and accessory issues, in which most of the activity has centred of late, but it also embraced all of the old line standard stocks of the type of Steel common and other speculative favorites, a circumstance which was commented on very favorably in commission house dreles after the closing. It was a repetition of last week's session on a larger scale and was due no doubt to the favorable impression created by the easing of money rates. This has been the one thing that has prevented a broadening of speculative interest, and as soon as it became apparent that some real improvement had taken place the market did just exactly what experienced observers had said it would all along.

financial district was also very much pleased with the stand Junge Gary took before the labor conference, there had been some uncertainty as to what might result from the pressure that was being brought to bear in this respect, and the statement yesterday from the head of the Steel Corporation much because will be the statement of clear way. from the head of the Steel Corporation must have been sufficient to clear away all doubts in this respect. It was no doubt a very important consideration in reviving interest in the steel shares, for outside of money considerations, which were perfectly well known on Saturday, there was no other news to account for the strength, particularly of these shares. The President's condition continued to improve and there was less apprehension over the various labor diffiprehension over the various labor diffi-culties, but these considerations had practically lost their influence on the market any way. The only thing that really counted yesterday was the im-provement in the money situation, a fac-tor which made itself felt in all paris of the list. There was some doubt as to whether the improvement would continue, but most of these doubts were dispelled in the last hour when the ruling rate went as low as 4 per cent, which is the lowest in many weeks back.

The upward movement in stocks which

The upward movement in stocks which resulted was very general. It included practically everything on the list, with the single exception of the railroad shares. These issues, as have been pointed out frequently, have lost their attractiveness on account of the uncertainty over the railroad shares, and more particularly on account of the attractiveness. tainty over the relivond shares, and more particularly on account of the attractiveness of the specialty stocks and industrial shares. The most spectacular gains were still in the motor shares, however. General Motors, for instance, had a net advance of more than 20 points to a new high resord, and all other issues had proportionate gains. Next to the motors the oils continued to hold the centre of attraction. However, the feature of the trading, aside from the appecialties, was the strength which the feature of the trading, aside from the specialties, was the strength which developed in the steels, following the publication of Judge Gary's statement. On the strength of this statement Steel common was bid up very sharply to above 110, and for a time it looked as if the movement in the steels had been resumed in full force. Toward the closing, however, activity in the steels died out and letters a small shifted to the street time. interest again shifted to the specialties, which closed very strong.

The improvement in the money situa-

tion, while it was very pleasing, was not at all surprising. It had been forecast by the drop in rates in the last hour of Atlan. Aye. R.R. B'klyn 5s,'31

Atlan. Aye. R.R. B'klyn 5s,'31

Atlan. Aye. R.R. B'klyn 5s,'31 B'klyn City R.R. 1st 5s, 1941
B'klyn Un. Elev. R.R. 5s, 1950
B'klyn Union Gas Co. 5s, '45
Dry Dock E. B'way&B.5s,'32
Kings Co. Elevated 4s, 1949

which was a relief after the steady decime experienced all last week. Other cline experienced all last week. Other rates finished the session not far re-moved from the preceding day's final.

GOSSIP OF WALL STREET.

Money at 4 Per Cent.

A flow of money from the interior, attracted to this centre by last week's high rates, had yesterday the effect of crumbiling the call money rate from 5 to 4 per cent., and at the close mency brokers found several millions of dollars of unlent funds on their hands. Saturday's very favorable bank statement also was a factor in unloosening high rates which prevailed last week. The first two queprevailed last week. The first two quotations were yesterday 8 per cent. At 2 P. M. the rate was 7 per cent and at 2:30 it was 6. At 2:45 it had dropped to 4 per cent, which prevailed at the close. The easing of money with absence of any disturbing factor in the market resulted in a boiling market, in which sales amounted to considerably in excess ef 1,500,000.

Short Covering.

Professionals attributed some advance Professionals attributed some advances made yesterday in the market to short covering. A large block of shorts in Mexican Petroleum is known to have been driven in and covering in such stocks as Studebaker. White and General Motors was particularly noticeable. This view was borne out in the loan crowd after the market's close, when it was reported that several large blocks of stock, particularly of Studebaker, had been returned by borrowers. Exclusive of easier monky, which prevailed vesterday the monay, which prevailed yesterday, the largest factor in the present market is the Supreme Court's forthcoming deci-sion on the stock dividends case, involv-ing the question of whether or not stock dividends are taxable.

Stewart Speedometer.

The unparalleled prosperity of automobile concerns is spreading rapidly to corporations which manufacture accessories, and carnings of which go hand in hand with those of automobile corporations. A reflection of this condition was to be seen yesterday in the increase of the common dividend of the Stewart-Warner Speedometer from an 8 per cent, to a 12 per cent, basis. At the same time its directors proposed to its stockholders that the present 100,000 shares of stock at \$100 par value be increased to 400,000 shares of no par value and to issue the new shares to its present stock-

The rapidly widening interest being taken by the country at large in the market for securities is reflected in the number of new branch offices established within the last month or so by Stock Exchange and Curb houses. The oil fields of Texas have been found a prolific source of inquiry for investment and speculation, and at least a opened in the Southwest this fall. The same opened in the Southwest this fall. The same manager of a large Curb house said yesterday that his firm has opened a new office at Ealtimore and that the results have far surpassed expectations. A multiple wire has been installed, working four operators, and the average time for the averaging of a same time for the average time for the average. age time for the execution of an order for a Curb or a Stock Exchange stock delivered at the Baltimore office is about five minuage

Equipment Trusts.

Plans for a national equipment trust to finance the expenditure of \$400.000, From the finance the expenditure of \$400.000, From the first second of lack of mesessary authority in the railroad control bill to ner. or account of lack of necessary authorin account of lack of increasary authority is the railroad control bill, to permit the Railroad Administration to purchase a portion of the securities, is going through. A conference of lawyers, at which the problem was threshed out, has been held in Washington. The bankers had been asked to initiate necessary enabling legislation and passed the buck to the Association of Railroad Executives. The railroad men in turn declared that it railroad men in turn declared that it was the plain duty of the Administration to take the initial step. The Administration refused to do so, on the grounds that Congress was hostle to such a move. Republican leaders in Congress are reported to be a considered in the congress are reported to the congress are reported. Congress are reported to have assured railroad men that such legislation can and will be passed at its current ses-
